DIGITISE - SECURITY - GROW

THURSDAY, 25th JUNE 2020 | 9:00AM - 10:00AM

Security is one of the major factors for digitisation journey and a constant denominator to grow any company during crisis and disruption.

Digitisation is not new, especially during Covid-19. Many companies have shifted their operating method, and more than ever, companies know they should digitise to be functional. They know that technology is core to their strategy no matter the industry.

This webinar will examine:
1.The effect of digital transformation on business operations and efficiency during a crisis
2.What is the current Digital Threat Landscape
3.How do we adopt Zero-Trust in current WFH and disruption situation?
4.How to monitor performance while ensuring a seamless digital process

Presented by

Ching Ping Wong
Business Development
Fortinet

Halid Mohadi
Former CIO
Telekom Brunei Berhad
